

# DATA SHEET E1

## PRODUCT DESCRIPTION

The adventure begins where the road ends: whether you are riding to work or taking a trip to the mountains – with the SCHUBERTH E1 you can just focus on what is ahead of you, regardless of the path you choose. Discover the world, blaze new trails, and simply go wherever your ride takes you. This innovative dual sport helmet for adventure riders offers the highest level of comfort, flexibility, and safety. The ultimate gadget for modern adventure-seekers who do not want to compromise.

- Equipped for any type of adventure: fully articulating peak visor, which can be adjusted to three different positions independently from the face shield and chin bar
- More air to breathe: closable chin vent with removable and washable filter
- The E1 is equipped to accommodate the SCHUBERTH SRC or SC10U Systems (sold separately)

## WEIGHT

Starting at 1,695 g

## HELMET SHELL

- Directly processed glass fiber (SCHUBERTH Direct Fiber Processing) combined with a special resin is compressed in a vacuum at high pressure to form a uniquely solid and light helmet shell
- Carefully crafted in our proprietary wind tunnel, aerodynamically optimized for high speed stability without buffeting

## INNER SHELL

- The complex segmentation of our specially optimized EPS foam liner ensures optimal shock absorption to keep your head protected
- Multipath channels in the EPS liner allow for excellent ventilation throughout the helmet

## FEATURES

- Removable and washable inner lining; allergen-free and anti-bacterial (Oeko-Tex 100 certified)
- Coolmax® fabric turns the interior of your helmet into a highly effective moisture removal and cooling system
- First-class visors offer clear vision without any distortion
- Easy change mechanism for a quick and simple face shield change without the use of tools
- Preinstalled anti-fog lens prevents shield from fogging
- Integrated flip-down sun visor
- 2 helmet shell sizes allow for best fit with excellent protection
- Anti-Roll-Off System (A.R.O.S.) to ensure that helmet is kept in place
- FM and Bluetooth antennas integrated into the helmet for optimum reception
- Reflective elements make riding even safer
